### Annual meeting and general assembly of the Swiss Movement Disorders Society

**Thursday, December 19<sup>th</sup> 2024**, from 13h30 to 18h00  
Hotel Kreuz, Zeughausgasse 41, Bern

**General assembly from 18h15 to 19h30 only  
for SMDS Members**

Dear Madam, dear Sir and dear Colleagues,

We are pleased to invite you to the Annual meeting of the Swiss Movement Disorders Society. Our society aims at bringing together all professionals involved with the care for patients with movement disorders. We consider our field to be a formidably interdisciplinary domain and wish to provide a forum for exchange to physicians, researchers, therapists, and nurses. This invitation therefore extends to all interested clinicians, scientists, and professional caregivers.

Our 2024 meeting is dedicated to the differential diagnosis and management of Parkinsonism including the evolving field of biomarkers. The second focus of this meeting will be on new developments and controversies of Deep Brain Stimulation. We are delighted to have been able to invite international and national experts to cover these topics.

This year, our annual meeting will take place on site in Berne (Hotel Kreuz).

We are looking forward to seeing you.

PD. Dr. Michael Schüpbach  
*President SMDS*

PD Dr. Georg Kägi  
*Vice-President SMDS*

## Program
